3.000 years of HISTORY in San Vicente do Grove

There is a place in Galicia that preserves the treasure of its whole history in just over a kilometer.

It is in San Vicente do Grove.

In a memorable scenery, we will talk about forgotten gods, legends, mysteries ... and you will be guided along the same paths that all Western civilizations traveled throughout history: Saefes, Celts, Phoenicians, Romans, Julius Caesar, the Apostle Santiago, Suevos, Vikings, Arabs, and also pirates and corsairs ...

All that is on this route.

A beginning in Os Castriños, our origin

A presentation of the Adro Vello archaeological site, what it hides and part of what remains to be known.

A nice walk of light and sea along some of the beaches of San Vicente.

A detailed visit to the complex consisting of the parish church, rectory house, exempt bell tower and sculpture of the Traslaticoin, symbol of Xacobeo 2021.

A must stop in the ruins of the Casa da Fonte, image on the O Grove shield that represents San Vicente, and a scenario that encloses transcendental facts of our local history and that reflect much of that of Galicia.

A guided tour, always enjoying the beautiful landscapes of San Vicente.

Wherever you come from, you will be, sure, a part of this story.
